

# U.S. Census Bureau Estimates for Cities and Housing Units, Vintage 2019

The Census Bureau's most recent release on May 21, 2020 provides population estimates for incorporated places (cities and towns) and housing unit estimates at the state and county level from Census 2010 to July 1, 2019.

The city level estimates utilize locally submitted building permits as the basis to estimate population. They are then controlled to the county estimate totals, which were published in March 2020.

#### **National Picture**

Cities in the southern region of the United States experienced some of the fastest and largest population gains between 2018 and 2019, largely driven by cities in Texas. The West was the next major contributor, with five cities in the top fifteen for population gains. The South and West also had the fastest-growing cities since Census 2010.

Housing units increased steadily in most states. Texas, Florida, California, and North Carolina added the most housing units from 2018 to 2019.

## **Utah in the National Context**

According to the 2019 housing unit estimates, Utah experienced the nation's fastest housing unit growth between 2018 and 2019 at 2.2%. Idaho was second, while Colorado and Texas tied for third. Since 2010, Utah had the second fastest increase in housing units (15.7%) behind North Dakota (19.7%). For both time periods, most of the absolute growth in Utah's housing units occurred in Salt Lake, Utah, and Washington Counties. The fastest housing growth since 2010 occurred in Wasatch, Washington, and Utah Counties, with Wasatch County ranking 10<sup>th</sup> in the nation. Recent growth is strong: Census Bureau analysis indicates that most counties in Utah grew faster in the past year than their average growth over the decade so far.

Of large cities (population 50,000 or more in 2019), Herriman ranked first in the nation for population growth in the past year (15.0%) and for growth this decade. The city's population more than doubled since Census 2010, standing at 51,348 in 2019. South Jordan and Lehi ranked 12<sup>th</sup> and 15<sup>th</sup> nationally for growth

## **Utah at the Top of National Rankings**

Ranking	Area	Percent Growth
2018-2019		
Fastest Housing Unit Growth	State of Utah	2.2%
Fastest Population Growth*	Herriman	15.0%
12th Fastest Housing Unit Growth	Washington County	4.0%

#### 2010-2019

Fastest Population Growth*	Herriman	1.4%
Second Fastest Housing Unit Growth	State of Utah	15.7%
Tenth Fastest Housing Unit Growth	Wasatch County	35.5%
12th Fastest Population Growth*	South Jordan	51.8%
15th Fastest Population Growth*	Lehi	46.0%

<sup>\*</sup>Of cities with populations of 50,000 or more on July 1, 2019

in these large cities this decade, at 51.8% and 46.0%. Vineyard, located in central Utah County, was the fastest growing place (with a population over 1,000) in the nation since 2010, when its population was just 139. Its population is now estimated at 11,866.

## **Population Changes in Utah Cities**

Utah's statewide growth between 2018 and 2019 was the fourth fastest in the nation, with a 1.7% increase (52,408 individuals). While Herriman had the largest growth, other cities in southern Salt Lake County and northern Utah County also played a significant role. The cities in these areas (as well as Vineyard) have frequently held high rankings since 2010 – whether in absolute increase or percent increase.

The Census Bureau estimates indicate that Herriman, Lehi, Eagle Mountain, South Jordan, and St. George were the top five cities in terms of absolute population growth between 2018 and 2019. The Salt Lake and Utah County cities on the top ten list produced 41% of the statewide population growth between 2018 and 2019.

Most of Utah's fastest growing cities had populations of 50,000 or less. Vineyard had the fastest population growth in the state from 2018 and 2019, at 18.5%. Other rapidly growing cities were Herriman (15.0%), Bluffdale (11.8%), Eagle Mountain

(8.0%) and Plain City (8.0%). This maintains the trend of Vineyard and cities in southern Salt Lake County and northern Utah County being the fastest growing areas in the state this decade, and also highlights fast growth in Weber County.

The largest cities in the state are Salt Lake City (200,567), West Valley City (135,248), Provo (116,618), West Jordan (116,480) and Orem (97,828). The fastest growing large cities (populations of 50,000 or more in 2019) were Herriman (15.0%), Lehi (5.7%), South Jordan (3.7%), St. George (2.8%) and Layton (1.1%). Over 43% of Utah's population lives in the state's fifteen large cities, even greater than the national level of nearly 39%.

# Cities (1,000 or larger) with the largest absolute increases, 2018-2019

City or Town	County	2018 Population Estimate	2019 Population Estimate	2018-2019 Absolute Change
Herriman	Salt Lake	44,663	51,348	6,685
Lehi	Utah	65,958	69,724	3,766

Source: U.S. Census Bureau, Population Division, 2018

Although there was growth across the state, 27 cities with populations over 1,000 experienced population decline according to the Census Bureau estimates. The cities with the largest absolute population declines were West Valley City, Sandy, Holladay, Murray, and Taylorsville (all in Salt Lake County). The cities with the largest percentage decrease in population were Duchesne (-3.3%), Cedar Hills (-1.2%), Blanding (-1.0%), Holladay (-0.9%), and Monticello (-0.9%). Two of these cities are in Duchesne County, where the overall population changed very little over the past year.

Note: For each county, a single "balance of county" estimate is available which groups all areas of the county which are not officially incorporated cities, towns, or metro townships as recognized by the Census Bureau (for example, "Balance of Salt Lake County"). These estimates are not included in this fact sheet. All estimates can be accessed at https://www.census.gov/programs-surveys/popest/data/data-sets.html.
